
Use of Facilities by Outside Organizations or Groups**Policy No. 402.11**

The Board of Education, School District No. 91 (Nechako Lakes), encourages the use of the school buildings outside regular school hours for cultural, educational or recreational purposes.

Any facility rental or use agreement should not be in direct competition with a local business that has appropriate and similar facilities available. Priority consideration for usage should be given to family, youth, and child services that complement the goals of the district.

No rental or use agreement should incur a cost to the district or interfere with the operational requirements, including when schools are not in session.
