

**Communicating Student Learning**

**Policy No. 304.2**

The Board of Education, School District No. 91 (Nechako Lakes), recognizes that a strengths-based assessment and reporting perspective supports learning and promotes the goals of the BC Education system.

The District is committed to honouring learning as an on-going process and is committed to providing regular communication that is inclusive of all voices: teachers, students, and parents/guardians. In this way, communicating student learning aligns with the curriculum, instruction and support for students. Effective communication between the home and the school is central to supporting student success and growth.
