

Funds Raised in Schools

Policy No. 403.6

The Board of Education, School District No. 91 (Nechako Lakes), expects that any funds raised by schools will be managed in an open and honest manner and be able to withstand public scrutiny of the collection and disbursement of the funds.

Therefore, the Board expects that accounting procedures at each school should be established for the management of such funds. These procedures should conform to the policies and procedures of the district and generally accepted accounting procedures for school districts.
