

## **Sale of Surplus Vehicles and Equipment**

**Policy No. 403.9**

The Board of Education, School District No. 91 (Nechako Lakes), recognizes the need to occasionally dispose of buses, vehicles, furniture and equipment when their functional use to the district has diminished.

The Board also recognizes the need to dispose of these assets in a manner that:

1. Maximizes the financial benefit to the district; and,
2. Permits members of the public an opportunity to purchase these assets.

The Board authorizes the Secretary-Treasurer to dispose of such district assets through methods consistent with this Policy.
