

**Statement of Guiding Principles for Auxiliary Services**

**Policy No. 400.0**

The Board of Education, School District No. 91 (Nechako Lakes), believes that the auxiliary services in the district are important aspects in support of the educational programs and services. These services are significant in a district which encompasses a large geographical area and relies on an extensive transportation system to allow students to attend school.

The Board desires that all food, transportation and other auxiliary services in the district be offered in a safe, healthy and respectful manner with a continual focus on supporting the needs of the learner.
