

**Student Rights and Responsibilities for Locker Use**

**Policy No. 301.7**

The Board of Education, School District No. 91 (Nechako Lakes), recognizes the student's right to privacy in respect to the storage of possessions in his/her school locker. However, there may be times when the need to ensure enforcement of Board Policy and Regulation with respect to the Code of Conduct supersedes this right of privacy.

Therefore, it is required that every student/parent who uses a school locker will sign one of the school locker agreements in the accompanying Regulations. The agreement will remain in effect during the student's enrolment at that school.
