

Welcome Back Fraser Lake SD91 Staff!

The Fraser Lake Community Foundation would like to welcome back each and every SD91 staff member working in our Fraser Lake school system. We would also like to welcome those newcomers to the district and the community. We would like to thank you all for everything you do on a daily basis educating our youth during these difficult and unprecedented times.

The Fraser Lake Community Foundation has passed a milestone and now able to offer grants to community groups and organizations to support them with projects, with the first grant of \$5000 being awarded this November. The Foundation is hopefully to offer two granting cycles per year moving forward.

Our grant is open to non-profit societies or charities, registered businesses, healthcare providers, or educational facilities with the goal of enhancing the community.

The Foundation has five granting priority areas to support our goal; **1. Amateur Sport and Community Recreation, 2. Arts and Culture Activities, including music, theatre, film, dance, literature, painting, sculpture, and pottery, 3. Business, 4. Health Care, 5. Preservation of Lands or Buildings of Historic or Environmental Value.**

For the society to continue issuing grants for years to come, we rely on donations. We are now in a position to accept donations through a payroll deduction program for SD91 staff. We hope SD91 staff consider supporting the Foundation through this program.
